

# Intelligent Rack PDUs<sup>1</sup> and Power IQ<sup>®</sup> DCIM

## Get Up and Running Fast, with Our QuickStart Configuration Service

Save power, reduce downtime, and provide better service delivery in as little two days<sup>2</sup>. Let the data center experts help you get started today!

### iPDU's and Power IQ QuickStart Configuration Service Deliverables

1. Successful deployment of Power IQ for one data center with configuration for up to 50 iPDU's and up to 300 IT devices<sup>3</sup>.
2. Full integration of iPDU's and Power IQ including database population and SNMP configuration for data collection.
3. Up to five dashboards that include two charts (e.g. PUE gauge, health map, cooling chart, capacity forecast, etc.) each.
4. Training on import spreadsheet setup, configuration, and reporting.
5. Identification of next steps to ensure on-going success, including dynamic plug-ins and alert notification.

### Ordering Information

Part Number: SVC-PWIQ-QS<sup>4</sup> Set up and configuration of Sunbird Power IQ and 50 iPDU's.

### Optional Add-On Services

- Full administrator and end-user training.
- Raritan PX firmware verification and upgrade.
- Custom reporting.
- Configuration for facility objects like CRACs, floor standing PDUs, RPPs, and UPS.
- Proposals for future expansion and additional configuration options.

This service is for configuration only.

<sup>1</sup>Applicable to any "intelligent rack PDU" that has "built-in" support within Power IQ and is already configured on the client network.

<sup>2</sup>Prerequisites include physical rack mounting, network cabling, powering the rack, IP assignment, Excel import file ready for upload, and installation of Power IQ prior to on-site service delivery.

<sup>3</sup>Additional services available for multiple data centers and over 50 PDUs.

<sup>4</sup>This SKU is specifically for configuration and integration of up to 50 PDUs.

Sunbird Software is changing the way data centers are being managed. With a focus on real user scenarios for real customer problems, we help data center operators manage tasks and processes faster and more efficient than ever before, while saving costs and improving availability. We strive to eliminate the complexity they have been forced to accept from point tools and home grown applications, removing the dependency on emails and spreadsheets to transform the delivery of data center services. Sunbird delivers on this commitment with unexpected simplicity through products that are easy to find, buy, deploy, use, and maintain. Our solutions are rooted in our deep connections with our customers who share best practices and participate in our user groups and product development process.

Based in Somerset, NJ, Sunbird serves nearly 1,000 DCIM customers worldwide. For more information, please visit [SunbirdDCIM.com](http://SunbirdDCIM.com).
